

Overview of Training

Sediment is the world's #1 pollutant. Soil moved by erosion can be harmful to our drinking water resources, our fish and wildlife, and can impact our quality of life. We all need to know our options for both controlling sediment and for designing and installing more effective long term erosion control solutions.

These field days are a unique combined effort between the private and public sectors to share information and promote a better understanding of the latest tools available to all who are entrusted with protecting our precious soil and water resources.

The day will start with classroom sessions and then move outdoors to small group sessions in a hands-on demonstration setting.

Our goal is to provide information that is immediately useful to all who attend.

Sponsors and Presenters

- ◆ Coös, Grafton, Sullivan and Cheshire County Conservation Districts
- ◆ Northeast Chapter -International Erosion Control Association
- ◆ Aqua Blok
- ◆ Everett J. Prescott, Inc.
- ◆ North American Green
- ◆ Bowman Supply
- ◆ Profile Products
- ◆ Advanced Drainage Systems

Cheshire County Conservation District
11 Industrial Park
Walpole, NH 03608

Summer Erosion Control Field Days

Training for professionals working in soils, erosion control, water quality, public works, engineering, roads, planning, and consulting.

August 22 and 23, 2017
North Haverhill, & Keene
Sponsored by local County
Conservation Districts

Registration Form

RSVP by **August 15** for all locations.

Make check payable for **\$60** and to the sponsoring conservation district:

Session Attending (check only one):

August 22, 2017 at the UNH Extension Conference Room, 3855 Dartmouth College Highway, North Haverhill. Send payment to: **Grafton County Conservation District**, 19 Archertown Road, Orford, NH 03777

August 23, 2017 at the Stonewall Farm, 242 Chesterfield Rd, Keene. Send payment to: **Cheshire County Conservation District**, 11 Industrial Park, Walpole, NH 03608

*Coffee and pastries will be provided for the morning sessions.

Continuing Education Approvals

⇒ NH Department of Environmental Services Subsurface Credits : 6.0

⇒ EnviroCert International: Professional Development Hours (PDH): 6.0 hours

Contact your professional association for more information regarding additional CEU's.

Agenda

*Agendas for each individual program will be finalized prior to each event

- 8:00-8:30: Registration and Vendor Exhibits
- 8:30-10:00: Classroom Overview
- 10:00-10:30: Break and Vendor Exhibits
- 10:30-11:00: Classroom Presentations Continued
- 11:00-12:30: Field Station Rotation
- 12:30-1:30: Buffet Lunch (provided)*
- 1:30-3:30 Continue Field Stations

Overview - Classroom

- ◆ Innovations in Bentonite
- ◆ Polymers/Flocculants
- ◆ Jobsite Compliance I
- ◆ Jobsite Compliance II

Overview - Field Stations

- ◆ Blankets and Mats
- ◆ Soil Amendments
- ◆ Jobsite Sediment Control
- ◆ Porous Pavement Systems
- ◆ Vegetated Solutions
- ◆ Stream Crossings/Advanced Drainage Systems
